Safety Data Sheet
U-Mix® Slab Weld -Component B
Complies with OSHA Hazard Communication

SECTION 1. Identification

1.1 Product Identifier:
Product Name: U-Mix® Slab Weld - Component B
Product Code: Formulation JB-221B

1.2 Uses of the product:
Poly urea Binder - Component B

1.3 Details of the product manufacturer:
Supplied By:
Specco Industries Inc.
601 N. 5th Ave.
Kankakee, Illinois 60901
(630)-257-5060
e-Mail: Info@specco.com

1.4 Emergency Telephone Number:
24 Hour Emergency:
INFOTRAC: 1-800-535-5053
Outside U.S. and Canada
Infotrac: 352-323-3500

Note: INFOTRAC and National Response Center emergency numbers to be used only in the event of chemical emergencies involving a spill, leak, fire, exposure or accident involving chemicals

SECTION 2. Hazard(s) Identification

2.1*** EMERGENCY OVERVIEW***
Health hazard: Suspected of causing genetic defects
Environmental Hazard: Toxic to aquatic life with long lasting effects. Irritant: Causes skin irritation, may cause an allergic skin reaction. Sensitizing: May cause sensitization by skin contact.

Target Organs: Eyes, skin, respiratory system, central nervous system

2.2 Classification of the substance or mixture:

GHS-US Classification
Flammable Liquids- Category 3
Acute Toxicity, inhalation mist -Category 4
Serious Eye Damage –Category 1
Skin Sensitization – Category 1
Respiratory Sensitization –Category 1
Chronic Aquatic Toxicity- Category 3

2.3 Label elements:

Symbol(s) of Product GHS-US labeling:
Hazard pictograms (GHS-US):
Signal Word: DANGER

2.3 Label Elements:
GHS-US HAZARD STATEMENTS:
H302          Harmful if swallowed
H317          May cause an allergic skin reaction
H226          Flammable Liquid and vapor
H304          May be fatal if swallowed or enters airways
H315          Causes skin irritation
H318          Causes serious eye damage
H335          May cause respiratory irritation
H340          May cause genetic defects
H350          May cause cancer
H373a         May cause damage to organs through prolonged or repeated exposure if swallowed
H411          Toxic to aquatic life with long lasting effects

GHS –US PRECAUTIONARY STATEMENTS:
P202          Do not handle until all safety precautions have been read and understood.
P261          Avoid breathing fume/gas/mist/vapors/spray.
P264          Wash thoroughly after handling.
P270          Do not eat, drink or smoke when using this product.
P272          Contaminated work clothing should not be allowed out of the workplace.
P280          Wear protective gloves/protective clothing/eye protection/face protection
P281          Use personal protective equipment as required.

RESPONSE:
P301+P310+P331 IF SWALLOWED, immediately call a POISON CENTER/doctor/physician.
Do NOT induce vomiting.
P302 + P352 IF ON SKIN, Wash with plenty of water.
P303 + P361+P353 IF ON SKIN (or hair): Take of immediately all contaminate clothing. Rinse skin with water shower.
P304 + P340 IF INHALED: Remove person to fresh air and keep comfortable for breathing.
P305 + P351 + P338 IF IN EYES: Rinse cautiously with water for several minutes.
Remove contact lenses if present and easy to do. Continue rinsing.
P308 + P313 IF exposed or concerned: Get medical advice/attention.
P312          Call a POISON CENTER/doctor/physician if you feel unwell.
P314          Get medical attention/advice if you feel unwell.
P321          Specific treatment (see first aid section on label/SDS).
P332 + P313 If skin irritation occurs: get medical advice/attention.
P337 + P313 If eye irritation occurs: get medical advice/attention.
P362 + P364 Take off contaminated clothing and wash it before reuse.
P370 + P378 In case of fire: Use appropriate method to extinguish.
STORAGE:
P403 + P233 Store in a well ventilated place. Keep containers tightly closed.
P403 + P235 Store in a well ventilated place. Keep cool.

DISPOSAL:
P501          Dispose of contents/container in accordance with local / regional / national / international regulations.

2.4 Other hazards:
Hazardous decomposition products: None listed

SECTION 3. Composition on Ingredients

3.1 Substances:

<table>
<thead>
<tr>
<th>Chemical name</th>
<th>CAS-No.</th>
<th>Wt. %</th>

<td></td>
</tr>
</tbody>
</table>
SECTION 4. First-Aid Measures

4.1 Description of first aid measures:

**FIRST AID- EYE CONTACT:** Immediately flush eyes with water. Flush eyes with water for a minimum of 15 minutes, occasionally lifting and lowering upper lids. Get medical attention promptly. Remove contact lenses if worn.

**FIRST AID- SKIN CONTACT:** Immediately flush skin with plenty of water. Remove clothing. Get medical attention immediately. Wash clothing separately and clean shoes before reuse.

**FIRST AID- INHALATION:** Rescuers should put on appropriate protective gear. Remove from area of exposure. If not breathing, give artificial respiration. If breathing is difficult, give oxygen. Keep victim warm. Get immediate medical attention.

**FIRST AID- INGESTION:** If swallowed, do NOT induce vomiting. Give victim a glass of water. Call a physician or poison control center immediately. Never give anything by mouth to an unconscious person.

4.2 Principle symptoms and health effects both acute and delayed:

**EYE CONTACT:** Hold eye lids apart, initiate and maintain gentle and continuous irrigation until the patient receives medical care. If medical care is not promptly available, continue to irrigate for one hour.

**SKIN CONTACT:** Contact with skin may cause mild irritation. Prolonged or repeated contact can result in defatting skin which may result in skin irritation and dermatitis (rash). Personnel with pre-existing skin disorders should avoid contact with this product.

**INHALATION:** If breathing has stopped or is labored, give assisted respirations. Supplemental oxygen may be indicated. If the heart has stopped, trained personnel should begin cardiopulmonary resuscitation immediately. Move to fresh air.

**INGESTION:** Do NOT induce vomiting without medical advice. If a person vomits when lying on their back, place them in a recovery position. Never give anything by mouth to an unconscious person. Prevent aspiration of vomit. Turn victim’s head to the side.

**Primary Route(s) of Entry:** Eye Contact, Ingestion, Inhalation, Skin Contact

4.3 Indication of any immediate medical attention and special treatment needed:

Note to Physicians: Application of corticosteroid cream has been effective in treating skin irritation.
SECTION 5. Fire-Fighting Measures

5.1 Extinguishing Media:
Suitable Extinguishing Media: Carbon Dioxide, Dry Chemical, Foam, Dry sand, limestone powder
Unsuitable Extinguishing Media: Direct water spray

5.2 Special hazards arising from the substance or mixture:
Fire Hazard: None
Reactivity: NA

5.3 Advice for Firefighters: As in any fire, wear self-contained breathing apparatus pressure-demand (MSHA / NIOSH approved or equivalent) and full protective gear. Evacuate all unnecessary personnel. Shut down motors, pumps, electrical service, and eliminate sources of ignition. Avoid use of solid water streams. Use with caution. Water runoff can cause environmental damage. Dike and collect water used to fight fire..

SECTION 6. Accidental Release Measures

6.1 Personal precautions, protective equipment, and emergency procedures
General: Wear personal protection equipment (see Section 8). Keep unprotected persons away. Avoid contact with eyes and skin. Avoid inhaling mists and vapors. If material is released indicate risk of slipping.

Protective Equipment: Wear protective clothing as appropriate for the work environment, including gloves, and eye/face protection. Use respiratory protection as recommended in Section 8-Exposure controls/personal protection.

Emergency Procedure: Collect spilled materials for disposal.

6.2 Environmental precautions:
Containment: Prevent material from entering surface waters, drains or sewers and soil. Contain any fluid that runs out using suitable material. Retain contaminated water/extinguishing water. Dispose of in prescribed marked containers. Spills of materials which could reach surface waters must be reported to the United States Coast Guard National Response Center's toll free phone number (800) 424-8802.

6.3 Methods and material for containment and cleaning up:
Do not flush away with water. For small amounts: Absorb with a liquid binding material such as diatomaceous earth, dry sand, or earth, place in a chemical waste container, and dispose of according to local/state/federal regulations. Do not touch or walk though spilled material. Avoid runoff into storm sewers and ditches which lead to waterways. Ventilate spilled area. Stay upwind of spill. A vapor suppressing foam may be used to reduce vapors. Use only non-combustible material for clean-up. Use clean, non-sparking tools to collect absorbed materials. Contain larger amounts and pump up into suitable containers. Clean any slippery coating that remains using a detergent/soap solution or another biodegradable cleaner. Exhaust vapors.

6.4 Reference to other Sections:
Refer to Sections 8 and 13 for additional information. Eliminate all sources of ignition.
SECTION 7. Handling and Storage

7.1 Precautions for safe handling:

**Work Practices:** Use only in well ventilated places. Avoid breathing vapor, fumes or mist. Avoid contact with eyes, skin, and clothing. When transferring, follow proper grounding procedures. Use spark resistant tools. Do not load into compartments adjacent to heated cargo. Use explosion proof equipment. Always open containers slowly to allow any excess pressure to vent. Follow all SDS/label precautions even after the containers are emptied because they may retain product residues.

**Hygiene Practices:** Do not eat, drink, or smoke in work areas. Wash hands after use. Remove contaminated clothing and protective equipment before entering eating areas.

7.2 Conditions for safe storage, including any incompatibilities:
Keep away from heat, sparks, and flame. Containers can build up pressure if exposed to heat (fire). Store containers in a cool, well ventilated place. Keep container closed when not in use. Protect from direct sunlight.

**Static Discharge:** Materials can accumulate static charges which can cause an incendiary electrical discharge. Material is a static accumulator which has the potential of forming ignitable vapor-air mixtures in storage tanks.

7.3 Specific end use(s):
**Intended Use(s):** Concrete binder resin- two part polyurea
**Prohibited use(s):** None listed

SECTION 8. Exposure Controls/Personal Protection

8.1 Control Parameters:

<table>
<thead>
<tr>
<th>Chemical Name</th>
<th>ACGIH-TLV-TWA</th>
<th>ACGIH-TLV STEL</th>
<th>OSHA PEL-TWA</th>
<th>OSHA PEL-CEILING</th>
</tr>
</thead>
<tbody>
<tr>
<td>NA</td>
<td></td>
<td></td>
<td></td>
<td></td>
</tr>
</tbody>
</table>

8.2 Exposure controls:
8.2.1 Engineering controls:
Minimize the release of fumes or vapors. Use process controls, local exhaust ventilation, or other engineering controls to maintain airborne levels below the limits shown in Section 8.1 above. See also ACGIH Industrial Ventilation-Recommended Practice (latest edition).

8.2.2 Personal protective equipment (PPE):

**RESPIRATORY PROTECTION:** NIOSH/MHSA approved respirators are necessary if airborne concentrations are expected to exceed exposure limits.
SKIN PROTECTION: Wear impervious, impermeable gloves such as butyl rubber based to prevent contact with the skin. Wear protective gear as needed such as apron, long sleeved shirts to minimize contact. Wash hands with soap and water after use.

EYE PROTECTION: Wear safety glasses with side shields (or goggles) and a face shield

OTHER PROTECTIVE EQUIPMENT: Facilities storing or utilizing this material should be equipped with an eyewash facility and a safety shower.

HYGENIC PRACTICES: Do not eat or drink in areas where the material is used. Avoid breathing fumes. Remove contaminated clothing and wash before re-use. Wash thoroughly after handling. Wash hands before eating.

SECTION 9. Physical and Chemical Properties

9.1 Information on basic physical and chemical properties:

<table>
<thead>
<tr>
<th>Property</th>
<th>Value</th>
</tr>
</thead>
<tbody>
<tr>

</tbody>
</table>

9.2 Note: See “Other Information” Section (16) for abbreviation legend

SECTION 10. Stability and Reactivity

10.1 Reactivity:
Reacts slowly with water to release CO2

10.2 Chemical stability / Thermal decomposition / Conditions to be avoided:
Stable

10.3 Possibility of hazardous reactions:

10.4 Conditions to avoid:
All possible sources of ignition

10.5 Incompatible materials:
Avoid exposure to strong oxidizing agents and reducing agents

10.6 Hazardous decomposition products:
Carbon Monoxide and carbon dioxide, aldehydes, nitrogen oxides, HCN, HDI
SECTION 11. Toxilogical Information

11.1 Information on Toxilogical Effects: Toxilogical testing has not been conducted with this material.

11.1.1 Acute toxicity: The acute effects of this product have not been tested. Primary irritant effect is on the skin. Irritant to skin and mucous membranes on the eye. Sensitization possible though skin contact. Sensitization effect through inhalation is possible by prolonged exposure.

Data on individual components are below:

Name according to EEC   CAS#   Oral LD50, mg/kg   Dermal LD50, mg/kg   Vapor LC50,mgL
NA

11.1.3 Possibles eye damage/eye irritation: Corneal edema may give rise to a perception of “blue haze” or “fog” around lights. Exposed individuals may see rings around bright lights. This effect is temporary and has no known residual effect. Product vapor can cause glaucoma (corneal edema) when absorbed into the tissue of the eye from the atmosphere. Causes eye burns. May cause blindness.

11.1.4 Respiratory or skin sensitization: Harmful if in contact with skin. Causes skin burns. If absorbed through the skin, may cause central nervous system effects such as headache, nausea, dizziness, confusion, breathing difficulties. Symptoms of overexposure may be headache, dizziness, tiredness, nausea, and vomiting.

11.1.5 Inhalation effects: Harmful if inhaled and may cause delayed lung injury. Can cause severe eye, skin, and respiratory tract burns. Risk of serious damage to the lungs (by inhalation). May cause nose, throat, and lung irritation. Inhalation of aerosol may cause irritation to the upper respiratory tract. May cause central nervous system effects such as headache, nausea, dizziness, confusion, breathing difficulties. Severe cases of overexposure can result in respiratory failure. Harmful if inhaled.

11.1.6 Ingestion effects: Harmful if swallowed. If ingested, severe burns of the mouth and throat, as well as a danger of perforation of the esophagus and the stomach.

11.1.7 None
11.1.8 None
11.1.9 None
11.1.10 Aspiration hazard
No data available.

11.1.11:
Other information: None

SECTION 12. Ecological Information

12.1 Toxicity
Ecotoxicity: No data available, however, Trimethylbenzene is a marine pollutant under CFR172.101.

Acute Toxicity : No data / Chronic Toxicity: No data

12.2 Persistence and degradability
No data available.

12.3 Bioaccumulative potential
No data available.
12.4 Mobility in Soil  
No data available.

12.5 Other adverse effects  
No other specific adverse effects known

SECTION 13. Disposal Considerations

13.1 RCRA Waste Classification  
Must not be disposed together with household garbage. Do not allow the product to seep into the sewage system.

Recommended to dispose of according to regulations in a special waste incinerator. Always dispose of any waste in accordance with all local, state, and federal regulations.

13.3 Packaging disposal  
Completely discharge containers (no tear drops, no residual contents). Observe local/state/federal regulations.

SECTION 14. Transport Information

14.1 UN Number:  
Not regulated in containers less than 119 gallon capacity 450 liters) or less…

14.2 UN Proper Shipping Name:  
Not Regulated

14.3 Transport hazards class:  
NA

14.4 Packing Group:  
NA

14.5 Environmental hazards:  
Not relevant

14.6 Special precautions for user:  
No special precautions,

SECTION 15. Regulatory Information

15.1 U.S. Federal Regulations:  
TSCA No:  
This material or its components are listed on or are in compliance with the requirements of the TSCA Chemical Substance Inventory. This material does not contain any TSCA 12(b) regulated chemicals.

SARA SECTION 355:
None of the chemicals are on the list

**SARA SECTION 311/312 (Hazard Class)**
None of the chemicals are on the list

**SARA SECTION 313 (Chemicals)**
This product contains the following substances subject to the reporting requirements of Section 313 of Title III of the Superfund Amendment and reauthorization Act of 1986 and 40CFR part 372:

<table>
<thead>
<tr>
<th>CAS #</th>
<th>Chemical</th>
<th>State Code</th>
</tr>
</thead>
<tbody>

</tr>
</tbody>
</table>

**RCRA:**
This product is considered a RCRA (Resource Conservation and Recovery Act) waste due to characteristics of D001 (ignitability). Waste is subject to the land disposal regulations in 40CFR S261 and may require treatment standards.

**CERCLA:**
Components of this product have been reviewed according to the EPA “Hazard Categories” promulgated under Sections 311 and 312 of the Superfund Amendment and reauthorization Act of 1986 (SARA Title III) and is considered, under applicable definitions, to meet the following categories:
- Fire Hazard
- Acute Health Hazard
- Chronic Health Hazard

**EMERGENCY PLANNING AND COMMUNITY RIGHT TO KNOW ACT:**
None listed

**CLEAN AIR ACT:**
This product does not contain any Class I or Class II ozone depleting substances.

**FDA:**
No information

**NTP:**
No information

**OSHA:**
No information

**15.2 U.S, State Regulations:**

**CALIFORNIA PROPOSITION 65:**
Warning: The following ingredients present in the product are known to the state of California to cause birth defects, or other reproductive hazards.

<table>
<thead>

</tbody>
</table>

**MASSACHUSETTS TOXIC USE REDUCTION ACT:**
This material contains no listed components

**NEW JERSEY RIGHT-TO-KNOW:**
This material contains no listed components
PENNSYLVANIA RIGHT-TO-KNOW:
This material contains no listed components

15.3 International regulations:

CANADIAN WHMIS:
This product has been classified in accordance with the Hazard criteria of the CPR and the SDS contains all of the information required by the CPR

WHMIS Class: No information

DSL Status: This material or one or more of its components is not listed on the Canadian Domestic Substances List.

EUROPEAN UNION:
No Information

IARC:
No information

15.4 Other Regulations
National, state, provincial or local emergency planning, community right to know or other laws, regulations or ordinances may be applicable-consult applicable national , state, provincial or local laws.

SECTION 16. Other Information

Revision Date: 03-07-16

S.D.S. produced by: Specco Regulatory Department in accordance with the requirements outlined in the Federal Register, Volume 77, NO.58, March 2012 page 17574. In this final rule, OSHA modified its Hazard Communication Standard (HCS) to conform to the United Nation’s Globally Harmonized System of Classification and Labeling of Chemicals (GHS). The modifications to the standard included but were not limited to revised criteria for classification of chemical hazards and a new specified format for Safety Data Sheets.

Standardized American System for the identification of hazards presented by this product in view of emergency procedures (NFPA 704) / H.M.I.S. Ratings:

| Health: | 2 | Flammability: | 1 | Reactivity: | 1 | Personal Protection: | G |

Regarding Volatile Organic Compounds, gram/liter: N.A. (0)

DISCLAIMER: THE VOLATILE ORGANIC COMPOUND (V.O.C.) CONTENT REPORTED HEREIN, IF ANY, IS BASED ON A MATERIAL V.O.C. CALCULATION. NOTE THAT SEVERAL METHODS ARE USED FOR CALCULATING V.O.C. CONTENT AND THAT STANDARDS/REQUIREMENTS REGARDING V.O.C. CONTENT VARY BY LOCATION/JURISDICTION. ACCORDINGLY, SPECCO MAKES NO REPRESENTATIONS OR WARRANTIES, EXPRESSED OR IMPLIED, REGARDING THIS MATERIAL’S COMPLIANCE WITH V.O.C. STANDARDS/REQUIREMENTS APPLICABLE IN LOCATIONS/JURISDICTIONS WHERE THIS MATERIAL MAY BE SOLD OR USED.

Text for GHS Hazard Statements shown in section 3 describing each ingredient:

Skin Irritation, category 2          H315       Causes skin irritation
                                          H317       May cause an allergic skin reaction
Eye Irritation, category 2          H319       Causes serious eye irritation
GHS Pictograms shown in Section 3 describing each ingredient:

GHS07

GHS08

GHS02

The information on this SDS was obtained from sources which we believe to be reliable. However, the information provided is without any warranty, expressed or implied, regarding its correctness. Some information presented and conclusions drawn herein are from sources other than direct test data on the product itself. The information and recommendations are offered for the user’s consideration and examination and should be used to make an independent determination of the methods to safeguard workers and the environment. The conditions or methods of handling, storage, use and disposal of the product are beyond our control and may be beyond our knowledge. For these reasons we do not assume responsibility and expressly disclaim any liability from loss, damage, or expense arising out of or in any way connected with handling, storage, use, or disposal of this product. It is the responsibility of the user to comply with all Federal, State, and Local laws and regulations.
