PALLET LUBE CONCENTRATE
WATER DILUTABLE RELEASE AGENT FOR PRECAST CONCRETE PIPE

PRODUCT DESCRIPTION: Specco Pallet Lube is a concentrated liquid solution specifically formulated to create a barrier between the metal surface of the precast pipe pallet and the concrete. Pallet Lube prevents the concrete from sticking to the pallet after steaming (curing) and when the casting is tipped out. Additionally, Pallet Lube is a very effective release agent for the top ring, spindle and pallet of a concrete pipe machine reducing friction between turning parts. Pallet Lube is non-flammable, fully biodegradable, and non-corrosive and will not stain the finished product.

BENEFITS:
- Promotes easy stripping of precast header rings and pallets
- Minimizes clean-up of zero slump concrete mixers and related equipment
- Concentrated formula for on site dilution and cost reduction
- Low V.O.C., low odor formulation

VOC COMPLIANCE: Pallet Lube contains less than 50 g/L (0.42 lb. /gal.) volatile organic compounds. Meets Architectural Coatings Section 183(e) Final Rule Limit for form release compounds for all states.

DIRECTIONS FOR USE: Surfaces should be clean, dry and free of contaminants. Pallet Lube may be diluted up to 1:2 with water (by volume) in typical applications for increased coverage and cost reduction.

APPLICATION: Apply a light coating of Pallet Lube using sprayer, rag or brush to the steel pallet trays, completely covering the entire surface. Allow pallet trays to dry before using for best results.

CAUTIONS: Do not apply in temperatures below 35º F as this is a water-based product and subject to freezing. Wear eye and skin protection during placement. Keep from freezing.
